Thank you Elaine.

I will look forward to hearing from you, concerning the administrative extension.

I will be taking a look at your application package next week and get

back to you with regard to the administrative extension. The permit is

unlikely to be reissued before September 30, 2010 and as you are aware,

we will work to administratively extend the current permit until the

permit can be reissued.

Subject: RE: Phoenix's Sheldon Dome and Rolff Lake MPDES Permit Renewals

Elaine:

To date Phoenix Production Company has not yet received any documentation from the EPA, concerning completeness of the NPDES permit

renewal applications for the Rolff Lake (Permit #WY-0024945) and Sheldon

Dome (Permit

#WY-0024953) Fields, submitted March 23, 2010.

As you are aware, the existing permits are due to expire on September

30, 2010.

In this regard, Phoenix requests some documentation that the permit application package has been deemed complete and that an Administrative

Extension will be granted to the existing permits, should the new permits remain unissued at the time of expiration of the existing permits.

If you have any questions, please do not hesitate to contact me. Thank you for your cooperation on this matter.

Marvin, I have received the permits. I have not had a chance to check to see if they are complete - but will do so when I return from South Dakota.

Checking in Quickr, it looks like both of these permits were assigned to

you. Could you respond to Marvin? Thanks.

Subject: Phoenix's Sheldon Dome and Rolff Lake MPDES Permit Renewals

Colleen:

Just wondering if you could check on the status of Phoenix
Production

Company's Rolff Lake (Permit #WY-0024945) and Sheldon Dome (Permit
#WY-0024953) NPDES permit renewals.

The renewal applications were submitted on March 23, 2010.

I just wanted to make sure that EPA had logged them in and the
applications were deemed complete.

Thanks, for your help.
